Fluent in English and Pidgin

WORK EXPERIENCES

2008. Moro Timbers Limited

- I was employed as the company's graduate forester. During the two weeks with the company, I was involved in applying for Timber Authority (TA) for new concession areas, negotiating with landowners, preparing set-up plans prior for submission to PNG National Forest Service, clan boundary surveys, forest inventory surveys and setting up buffer zones.

2008. Eco Care Engineering

- I was engaged to do consultation services for Oil Search Limited Annual Rehabilitation and Restoration compliance work at Moro, Gobe, Kopi, Agigio, and Heights oil well pad sites. My duties include assisting team leader in annual data collection on PSPs along road corridors, quarry sites and road gravel pits, photographing of life specimens, plant identification both woody and non-woody in PSPs, data entry and analysis, assisted in report writing and aerial photographing on forest clearance along pipeline corridors.

2009-2010 Crown Timbers (PNG) Limited

- I am employed as the company's forester. I was involved in preparing set-up plans prior for submission to PNG National Forest Service, road line surveys, clan boundary surveys, forest inventory surveys setting up buffer zones and supervising the logging crews in the operation. Also, supervises the Sawmilling Crew on Timber Production, Sawn Timber Stock Inventory, International Export on Sawn Products, Domestic Timber Sales and other Administrative Duties.

2010-2012 SGS (PNG) Limited

- I am employed as a Field Inspector attached to the Forestry Division SGS PNG Ltd. I am responsible for monitoring and surveillance of all round logs exported from Papua New Guinea on behalf of PNG Forest Authority. This involves physical inspection of logs by species to be exported and report exported volumes which are correct and accurate statement of values. Checking of all log species identification and re-measuring of sample checks prior for shipment. Ensure that Exporter of logs species must abide by rules and regulations as stipulated in Forestry Act in exporting.

2013-Present PNG Forest Research Institute

- National Herbarium curatorial duties, Identification of Plant Species in Herbarium and Field, Collection of specimens and Herbarium Processing of Voucher specimens, Herbarium Digitization, Researched into Ecology of major forest types and threaten forest in PNG, Permanent Sampling Plot Establishment for Species Enumeration, Plot Establishment for REDD+ projects, Documentation of Flora of Forest Management Areas, Ornithology.
